## What is the Ontario Land Records Index?

The Ontario Land Records Index provides a reference to documents about individuals who:

- were authorized to locate on a piece of Crown Land (they did not always become the owner)
- leased or purchased land from the Canada Company
- were parts of groups of immigrants from Ireland whom Peter Robinson helped get land in the Peterborough area

The Index covers the period from the 1780's to the 1920's. It is arranged into two sets of microfiches, arranged alphabetically:

- by person's NAME
- by TOWNSHIP, TOWN or CITY, then by concession and lot number

You will find the index:

- in our reading room (in two binders, one for each sets of microfiche)
- through libraries that offer interloan services
- at some Ontario public libraries

## How do I use the Index?

Follow these steps:

- 1) Use the tables at the end of this document to find what microfiche you need to look at. Then find it in the binders (in the reading room) or order it through a library that offers interloan service. Some Ontario libraries also have a copy of the microfiche.

See below to view what entries looks like.

- 2) When you find an entry in the index, write down or copy it. See tables 1 to 4 on page 3 to know what the codes in the entry mean.
- 3) Go to Table 5, on page 6, and follow the instructions to find what microfilm has the original record matching the entry.
- 4) Retrieve the microfilm (in the reading room) or order it through a library that offers interloan service.
- 5) On the reel, find the volume, then the page. **Note:** The reel may contain more than one volume. There is a target at the start of each volume, that shows the volume number.

## How do I find what microfilm reel has the original records?

The entries in the last column (*ARCHIVAL REF*) identify what the original record is, and what microfilm reel has it. They are:

- RG and SER (series) the group of records the information is part of (Crown Land, Canada Company or Peter Robinson)
- VOL: volume number
- PG: page number

Use table 5 below to find what page has the list of microfilm reels that correspond to the RG and SER numbers you have found in the index.

## How do I find more information about the original records?

Our website contains general description for these records.

### For records with RG code 01 (Crown Land Records):

You first need to convert the old reference code (found on the Index and the microfilm reels) to the new reference code.

- In the reading room: use the “RG 1 Reference Code Conversion List” binder.
- Online, [click here to use the RG 1 Reference Code Conversion List](#). On our website, go to the Microfilm Interloan Catalogue, under “Access Our Collection”. Then, click on “Crown Land Records”.
- Once you have the new reference code, [click here to search our Archives Descriptive Database, and enter the reference code](#). On our website, the Archives Descriptive Database is located under “Access Our Collections”. Click on “Advanced Search”. Then click on “Search Groups of Archival Records” and enter the reference code.

For records with RG code CC (Canada Company): [Click here to see the description for F 129](#).

For records with RG code PR (Peter Robinson): [Click here to see the description for F 161](#).

For records with RG code 08 (Indexes to Land Patents by Name): [Click here to see the description for RG 53-56](#).
