1 -- Upon commencing at 9:00 a.m. 2 LIZ MCLELLAN: So good morning, 3 Councillor Brockington. My name is Liz McLellan, 4 and I am counsel on the Commission. I'm joined by 5 my colleague Kate McGrann, who is the co-lead of 6 Commission counsel. So to start, I'm going to read 7 an interview script that -- to confirm, have you 8 been affirmed this morning? 9 RILEY BROCKINGTON: Just now, 10 30 seconds ago. 11 LIZ MCLELLAN: Thank you. So the 12 purpose of today's interview is to obtain your 13 evidence under oath or solemn declaration for use 14 at the Commission's public hearings. This will be 15 a collaborative interview such that my co-counsel, 16 Ms. McGrann, may intervene to ask certain 17 questions. If time permits, your counsel may also 18 ask follow-up questions at the end of this 19 interview. 20 This interview is being transcribed, 21 and the Commission intends to enter this transcript 22 into evidence at the Commission's public hearings, 23 either at the hearings or by way of a procedural 24 order before the hearings commence. 25 The transcript will be posted to the

1 Commission's public website, along with any 2 corrections made to it, after it is entered into 3 evidence. The transcript, along with any 4 corrections later made to it, will be shared with 5 the Commission's participants and their counsel on 6 a confidential basis before being entered into 7 evidence. You'll be given the opportunity to 8 review your transcript and correct any typos or 9 other errors before the transcript is shared with 10 the participants or entered into evidence. Anv 11 nontypographical corrections made will be appended 12 to the transcript. 13 Pursuant to Section 33(6) of the Public 14 Inquiries Act (2009): 15 "A witness at any inquiry shall 16 be deemed to have objected to answer 17 any questions asked of him or her 18 upon the ground that his or her 19 answer may tend to incriminate the 20 witness or may tend to establish his 21 or her liability to civil 22 proceedings at the instance of the 23 Crown or of any other person, and no 24 answer given by a witness at any 25 inquiry shall be used or be

4

Т

1	receivable in evidence against him
2	or her in any trial or other
3	proceedings against him or her
4	thereafter taking place, other than
5	a prosecution for perjury in giving
6	such evidence."
7	As required by Section 33(7) of that act, you are
8	hereby advised that you have the right to object to
9	answer any question under Section 5 of the Canada
10	Evidence Act.
11	And if you need a break, please let us
12	know, but we will be taking one at 10:30 in any
13	event. So to begin, I'm
14	RILEY BROCKINGTON: Excuse me, can I
15	just say that you made reference to the fact that I
16	have counsel here, and that is not correct.
17	LIZ MCLELLAN: Okay.
18	RILEY BROCKINGTON: There is no counsel
19	here on my behalf.
20	LIZ MCLELLAN: Okay.
21	PETER WARDLE: So just to be clear, as
22	has been explained to Councillor Brockington on
23	previous occasions, my firm is acting for all
24	representatives of the City of Ottawa, including
25	councillors and former staff members. Councillor

1 Brockington does not have his own personal counsel. 2 KATE MCGRANN: Okay. Councillor 3 Brockington, you understand that you have -- you 4 may bring your own counsel to this interview if you 5 wish to. 6 That was not RILEY BROCKINGTON: 7 disclosed to me before today. And Mr. --8 KATE MCGRANN: Okay. 9 RILEY BROCKINGTON: Mr. Wardle made it 10 clear to me he's not here as my representative. 11 He's here on behalf of the City of Ottawa. 12 KATE MCGRANN: Do you wish to attend 13 with your own counsel at this interview? 14 RILEY BROCKINGTON: Well, I've asked 15 multiple times if that's needed. People have 16 said -- that I've spoken to at the City said that 17 they don't believe so, but I'm uncomfortable here 18 without counsel. 19 Well, if you wish to go KATE MCGRANN: 20 and consult counsel, we can reschedule your 21 interview so that you may attend with counsel. 22 It's entirely up to you. 23 RILEY BROCKINGTON: I'm not sure how to 24 proceed. 25 KATE MCGRANN: Well, unfortunately,

1 that's not something that we can give you any 2 advice on because we're counsel to the Commission. 3 RILEY BROCKINGTON: Sure. 4 KATE MCGRANN: So this is a decision 5 that you have to make. Why don't we go off the б record? 7 RILEY BROCKINGTON: I just want to make 8 it clear: A statement was made I have counsel, 9 here and that's not true. 10 -- OFF THE RECORD DISCUSSION --11 While we were off the KATE MCGRANN: 12 record, I explained to Councillor Brockington that 13 we will reschedule his interview if he wishes to 14 consult with counsel or to reschedule to attend 15 with counsel. He has indicated that he wishes to 16 proceed today with the people who are present, so 17 we will proceed. 18 LIZ MCLELLAN: So, Mr. Brockington, to 19 begin your interview, we will be taking a look at 20 your CV, which we received. So to confirm, are you 21 familiar with this document? 22 Looks like myself, RILEY BROCKINGTON: 23 yes. 24 Okay. So we'll have LIZ MCLELLAN: 25 your CV entered as Exhibit 1.

you were reelected in 2018; is that correct?	24	you were reelected in 2018; is that correct?
25 RILEY BROCKINGTON: The two terms have	25	RILEY BROCKINGTON: The two terms have

1 not yet completed, but I was elected in 2014, 2 correct. 3 LIZ MCLELLAN: Okay. And then did you 4 have any involvement in the LRT prior to your time 5 on council? 6 RILEY BROCKINGTON: Not officially. As 7 a community association president, followed the 8 issue, probably discussed the item through only 9 what was received publicly through the Citizen or 10 Sun, but no official position or engagement prior 11 to being elected. 12 LIZ MCLELLAN: Okay. And which 13 community association were you the president for? 14 Riverside Park RILEY BROCKINGTON: 15 Community and Recreation Association. 16 LIZ MCLELLAN: And what does that 17 association do? 18 RILEY BROCKINGTON: It, in essence, 19 represents issues at the local level within a 20 defined geographic area known as Riverside Park. 21 LIZ MCLELLAN: Okay. And I understand 22 there were public consultations in 2009 for the 23 Did you attend in a personal capacity or on LRT. 24 behalf of that association? 25 RILEY BROCKINGTON: In 2009, I was a

1 school board trustee. So I cannot recall if I 2 attended, but likely not, given my focus at that 3 time was on school board issues. 4 LIZ MCLELLAN: Okay. So can you please 5 describe your involvement in Stage 1 of the LRT as б a councillor from 2014 to present. 7 RILEY BROCKINGTON: My involvement 8 would have been mostly getting updates from City 9 staff on the progress of this project. There were 10 consistent updates through various committees and 11 council, of city council, by senior staff, mostly 12 the general manager of OC Transpo and/or the city 13 manager and/or outside representatives. And as 14 you're no doubt aware, there were opportunities for 15 not just learning about the matters and updates, 16 but asking questions. 17 In addition to in-person meetings, 18 there were written communiques that would come out 19 when certain milestones were reached. Aqain, the 20 purpose was to inform members of council of these 21 either milestones or hiccups or hurdles or problems 22 or, you know, significant enough issues that you 23 had to release a memo to council. 24 I took a tour of the tunnel when it was

²⁵ under construction, Phase 1. I got dirty and I

25

1 went underground, and simply it was for an 2 information opportunity, learning opportunity, to 3 see the -- the tunnels under construction, and that 4 was guite -- guite an experience. But really, as a 5 member of council, being informed and, of course, 6 asking questions and I think sort of the general 7 type of engagement that you would expect of an elected member of council. 8

⁹ LIZ MCLELLAN: And you mentioned ¹⁰ outside representatives. Can you -- can you ¹¹ provide some examples of who those outside ¹² representatives might be?

13 Well, members of RILEY BROCKINGTON: 14 the stage -- of the LRT team, there was legal 15 representation -- who else? -- safety expert at 16 some point, but I think they were employed by the 17 LRT team. Basically the non-regular City staff 18 that normally we work with when -- you know, the 19 specialized or the technical expertise that would 20 come in and provide that information.

LIZ MCLELLAN: Okay. And then I understand you were a member of the Planning Committee from 2014 to 2018. What is the role of the Planning Committee?

RILEY BROCKINGTON: Well, the role of

1 the Planning Committee is to receive zoning and/or 2 site plan applications from property owners who 3 wish to develop their property. We receive staff 4 reports in that regard that either provide a staff 5 recommendation in favour or opposed. We assess on 6 planning merits, all the -- all the issues of a 7 particular application, and ultimately make 8 decisions. So that's about 90 percent of what we 9 do.

We also receive staff information Preports, updates, like annual reports. We may not be taking action, but simply as part of the normal process of the committee, but the Planning Committee is a body of elected members of council who review these applications, both zoning and/or site plan.

LIZ MCLELLAN: And between 2014 and
 2018, was there any involvement by the Planning
 Committee in the LRT?

RILEY BROCKINGTON: I can't say with certainty. There may have been some land issues that the City needed to deal with, but again, I would have to look back. This committee is the workhorse of council. It meets twice a month. The agendas are massive. We've probably dealt with a Т

1	thousand-plus issues in my brief tenure. I can't
2	say with certainty. I would really have to check.
3	Liz McLellan: Okay. And then I
4	understand you were a member of the Transit
5	Commission from 2018 to present; is that correct?
6	RILEY BROCKINGTON: Yes.
7	Liz McLellan: Okay. And what's the
8	role of the Transit Commission?
9	RILEY BROCKINGTON: The role, our
10	mandate, is basically like a board of directors.
11	It looks at sort of the macro-level issues of a
12	Transit Commission's operations. We have one
13	staff, the general manager of OC Transpo, and we
14	really are a body that reviews policy, budget, some
15	of the macro-level issues.
16	Obviously, we get accused at times for
17	digging in too deep in the weeds of issues, but
18	really if you want to look at sort of the
19	high-level mandate, it's like a board of governors
20	or directors of a corporation. And we receive more
21	or less monthly meetings, and we go over some of
22	the higher-level issues of that organization.
23	LIZ MCLELLAN: Okay. And then what's
24	the role of the Transit Commission as it relates to
25	the LRT?

1	RILEY BROCKINGTON: If the LRT is up
2	and running, like Phase 1, it's updates on the
3	system - how it's working, what our passenger
4	counts are, issues with the functionality of the
5	system - as opposed to a line under construction,
6	like Phase 2, which is the purview of FEDCO, which
7	is probably your next question. And the public
8	doesn't really understand the difference,
9	councillors at times don't understand the
10	difference, but really Transit Commission is about
11	the line in operation today, working, versus FEDCO
12	which looks after the line which is under
13	construction and really some of the nitty-gritty
14	issues that are under the purview of that
15	committee.
16	LIZ MCLELLAN: And in terms of key
17	decisions for Stage 1 during your time on the
18	Transit Commission, were you involved in any of
19	those key decisions?
20	RILEY BROCKINGTON: Like, from the
21	beginning?
22	LIZ MCLELLAN: From 2018, from your
23	time on the Transit Commission.
24	RILEY BROCKINGTON: The Transit
25	Commission has focussed its attention on the line

1	once I mean, we were as a Transit
2	Commission let me back up. The Transit
3	Commission was, at a time, getting updates about
4	Line 1 before it opened. And at some point, there
5	was a decision made that FEDCO would become the
б	body dealing with issues associated with Line 1. I
7	don't know that exact point in time when that
8	switch happened. We obviously do deal with Line 1
9	now even when Line 1 went out of service due to
10	mechanical/technical failure. It became, on an
11	operational level, part of the Transit Commission's
12	duties to get updates and questions, but there were
13	also updates through FEDCO, whether it be legal
14	updates or some of the more serious technical.
15	Again, there was a dual role here between the
16	Commission and FEDCO itself.

¹⁷ LIZ MCLELLAN: Okay. I understand some ¹⁸ of the decisions that the Transit Commission might ¹⁹ have been involved in, you know, sort of between ²⁰ 2018 and now would have been more passenger ²¹ experience decisions? Does that ring true with ²² your experience on the Commission?

RILEY BROCKINGTON: Yeah, I think
 that's the intent of the management of the Transit
 Commission. Certainly, some of my colleagues and

1	even myself have no doubt asked questions about
2	more. We've tried to really engage as much as we
3	can there's, I think, a fundamental
4	fundamental or philosophical disagreement that
5	these matters be turfed to FEDCO when really
6	it's once the line has has been handed over
7	to OC Transpo, I think the Transit Commission does
8	need to take a much greater involvement and
9	engagement on the matter.
10	But absolutely, the Transit Commission
11	has been engaged and involved on not just getting
12	updates, but asking very pointed questions about
13	why certain components of the line the
14	infrastructure, the carriages, all the different
15	challenges that have happened since Line 1 opened,
16	the Transit Commission have asked some very tough
17	questions, but so has FEDCO. So again, it's
18	it's this blurry boundary between these two
19	committees. So I'll I'll just leave it there
20	for now.
21	LIZ MCLELLAN: So when the Transit

LIZ MCLELLAN: So when the Transit Commission is interested in receiving an update, can you walk us through sort of the Commission members sitting down, requesting an update or deciding amongst yourselves that you'd like an 16

1 update on issue X, to receiving the update. What's 2 the process? 3 Well, we -- we have RILEY BROCKINGTON: 4 a governance problem with the Transit Commission. 5 We -- we don't really have default agenda items. б We were not getting consistent updates with LRT 7 Line 1 and -- or even the bus service. T had to 8 bring a motion, as your researchers have probably 9 found out, to have a permanent agenda item which 10 says, to the best of my memory, LRT Confederation 11 That's the first item on our Line and bus service. 12 agendas, and it's been so for at least 18 months. 13 And it was through repeated requests of 14 the Transit Commission chair, Councillor Hubley, to 15 get some consistent reporting to the Transit 16 Commission on these very serious matters. Don't 17 forget we went without a regular Transit Commission 18 meeting for 4 months in the winter of 2020: 19 January, February, March -- I think we had our 20 first regular meeting in April. I requested a 21 meeting. Other Transit Commissioners requested 22 meetings at this time. We didn't have a regular 23 meeting for 4 months. This is when the line had 24 been -- gone down. COVID didn't hit us until the 25 So I had to move a motion to get end of March.

17

¹ this agenda item on our agenda.

2 And the agreement, sort of gentlemen's 3 agreement, was once the line was stabilized and, 4 you know, all the ramifications -- because we were 5 running parallel bus service, and we were at our б max with the fleet, and there were significant 7 issues with reliability on the bus system. Once 8 there was stability and they didn't have to keep 9 reporting back on the LRT Line 1, this agenda item 10 would come off our agenda. And I thought, you know 11 I don't want to fight them on this. what? Fine. 12 Because I knew we were going to get at least X 13 number of months of them reporting.

14 But it's become a -- now we've sort of 15 morphed out of that. There's much more 16 consistently -- consistently with the line -- if 17 you were to ask me, it should probably come off, 18 but what it's morphed or evolved into now is it's a 19 regular reporting feature where the GM talks about 20 the system as a whole - she talks about LRT, she 21 talks about the bus service - and as of last month, 22 I had another motion passed that has a separate 23 line on Para Transpo. So all of our three main 24 service delivery modes are on our agenda, and the 25 GM is expected to provide a report for those three

¹ branches of service.

2 Now, there's still gaps in what I think 3 the Transit Commission should be getting updates 4 on, but your question was about LRT, and that's 5 basically it. It's provided -- provided a 6 framework that we were missing. The Commission 7 passed my motion unanimously, and now the 8 expectation of management is we would have, at 9 every single meeting, an update on how things were 10 So that set the table, and then through the qoinq. 11 staff reports, commissioners and subsequently 12 media, after the meeting, could ask whatever 13 questions they wanted.

¹⁴ LIZ MCLELLAN: All right. So a few
¹⁵ follow-up questions from your answer, the first
¹⁶ being why did you feel a need to bring a motion to
¹⁷ have the Confederation Line as a permanent agenda
¹⁸ item?

19 RILEY BROCKINGTON: Because we were, as 20 a Commission, not getting consistent updates, 21 consistent information. There wasn't an 22 opportunity in public to talk about the system. 23 The public was clamoring for their elected 24 officials and commissioners to be engaged in this 25 It should not be done, me having a phone matter.

1 conversation with the GM or a memo. We need to 2 have a public discussion. What's wrong with the 3 What are you doing to fix the system? svstem? How 4 can we as a commission help you? Do you lack 5 Do you lack expertise? How can we resources? 6 understand what's happening, the scope of how bad 7 it is, who's engaged and involved? Do we have all 8 hands on deck? And as a commission, what else can 9 we do for you? Tell us. You cannot have that 10 discussion privately. It needs to be out there. 11 As a whole part of this democratic setup we have at 12 council is that, really, the business should go 13 through the committees, and it should be done so in 14 a public manner. 15 LIZ MCLELLAN: Why do you -- in your 16 opinion, why did you receive the impression or have 17 the impression that you didn't have the ability to 18 ask questions at the time? 19 RILEY BROCKINGTON: Oh, I can ask 20 questions any time. 21 LIZ MCLELLAN: Okay. 22 RILEY BROCKINGTON: I -- now, I'm not 23 sure what the context is. If it's --24 LIZ MCLELLAN: I believe you mentioned 25 that you felt that there wasn't an opportunity to

1	ask questions about the line, and that sort of led
2	to the permanent agenda item motion.
3	RILEY BROCKINGTON: There was no agenda
4	item where we could have this discussion. We have
5	a an agenda item at the bottom called public
6	inquiries where you submit a question in writing,
7	it gets responded to at some point in the future.
8	This is the greatest infrastructure catastrophe in
9	our City's history, and for scope and how much
10	this cost, and we have no dedicated spot on any
11	agenda to follow this item. And it's shocking what
12	we had to go through just to get an agenda item and
13	to have a consistent spot on our agendas for the
14	Commission to get updates and to ask questions.
15	And look, these are 2- or 3-hour spots
16	on our agenda. This particular agenda item
17	consistently is 2 to 3 hours long, still today. I
18	think last month it was a 3-hour 3 hours to get
19	through this agenda item. There's that much
20	interest, content it's not just all about LRT.
21	Now that we're, like I said, evolved from, you
22	know, the worst stages of some of of the
23	challenge with the system and things are more
24	stable, we can actually focus our attention on
25	other things. But it boggles my mind, with all the

1 organizations and groups I've served on and/or 2 chaired myself, I -- this would have been immediate 3 to me: Get on the agenda and make sure my 4 commissioners have as much opportunity to both 5 learn about what's going on and ask those 6 questions. That's what we're here for. 7 LIZ MCLELLAN: In your opinion, why 8 wasn't it a consistent or permanent agenda item 9 from the beginning? Back to 2018, I quess, when 10 you first joined the Transit Commission. 11 Yeah, I think there RILEY BROCKINGTON: 12 was a combination of, perhaps, staff thought they 13 were doing that through, you know, reports or other 14 communication avenues that they were apprising 15 council as a whole, or even at the Transit 16 Commission. I'm not saying that there was silence. 17 I'm just saying there was no dedicated spot for 18 this. 19 We have a culture at Ottawa City Hall 20 of trying to stifle bad news, and if there are 21 issues that are problematic; pardon the pun, gone

off the rails; make the City look bad, there's a reluctance to discuss this in public. During my first term in office, if I would ask questions publicly at committee or council, file public

1	inquiries that in any way was interpreted as making
2	the City look bad, I had been spoken to many times
3	by the mayor's office to say, listen, don't ask
4	that in public; don't ask that if you need help
5	with with questions, come to us. We'll work
6	with you to talk to staff. But there's a a real
7	culture and a pressure on folks not to go down that
8	road, and that is wrong.
9	LIZ MCLELLAN: When the mayor's office
10	would speak to you about questions that you had,
11	how would that play out when that happened?
12	RILEY BROCKINGTON: Well, as you might
13	have already get from me, I don't like being
14	told what to do. I'm here to represent my
15	residents in their best interest and the taxpayers
16	of the city of Ottawa. And I always listen, always
17	listen to try and understand, you know, what the
18	issue is, why a person takes a particular position,
19	what they're getting at. I do make mistakes, so
20	maybe I'm doing something wrong. I want to be very
21	receptive to whatever message is being delivered,
22	but at the end of the day, the message was we don't
23	want the public to know how bad things are; don't
24	ask your questions. That's basically the message.
25	And I just don't take I'm not in for that. I

1 don't play that game. Ultimately, I -- I get 2 punished because I don't get assigned to chair 3 committees or get part of the -- the in-circle, but 4 I sleep well at night. I can look at my daughters 5 with integrity. But we do have that culture. That 6 culture exists, absolutely. 7 LIZ MCLELLAN: Who from the mayor's 8 office would speak to you about your comments in 9 the --10 RILEY BROCKINGTON: The mayor's chief 11 of staff, Serge Arpin, the mayor himself. 12 LIZ MCLELLAN: And would they phone you 13 or email you, or how would that happen? 14 RILEY BROCKINGTON: Oh, it's always in 15 person. It's always in person, yeah. 16 LIZ MCLELLAN: Did you take any notes 17 of those discussions? 18 RILEY BROCKINGTON: No. 19 LIZ MCLELLAN: What did -- what do you 20 mean when you say that you are punished for your 21 commentary and that leads to you not being a chair 22 of committees or -- or the Transit Commission, 23 let's say? 24 RILEY BROCKINGTON: Yeah, at the first 25 board meeting of 2018, when this current council --

1	sorry council came into office, we had a school
2	board we called it the organizational meeting,
3	but we had the first meeting where all the
4	positions on city council are divided up, and
5	people know what they're going to chair and what
6	committees they're going to be on. And I was
7	relegated to, you know, minor stuff - didn't get my
8	first picks, let's just say. And I'm not here to
9	review my CV. I've chaired significant things in
10	my past, and the mayor knows this. The mayor and I
11	have known each other for almost 30 years now.
12	And you would when this term of
13	council started, brand-new councillors were
14	appointed chair positions; they became deputy
15	mayors. The mayor has always said at least in
16	my first term, he said the role of the first-term
17	councillors is to learn the system and be engaged
18	in your ward and not be and he's basically
19	said implied that these types of positions
20	should never go to a first-term councillor. You're
21	brand new, you're trying to understand the system,
22	you're trying to get your trying to get your
23	stability in the organization. And we had examples
24	of people who couldn't handle Jenna Sudds
25	couldn't handle the the workload and had to back

out of chairing Community and Protective Services 1 2 into -- in the second term. 3 But I basically said the mayor -- in 4 the media, after that meeting, the mayor has 5 created this insulated coalition - I think those 6 were my exact words - of people who are going to 7 vote his way, and they're not going to push back, 8 and wouldn't it be great to become a deputy 9 mayor -- you've just been elected, and the mayor 10 says, Listen, so-and-so, you're going to my 11 deputy -- one of my three deputies; you're going to 12 be part of my inner circle. You're not going to 13 publicly push back on the mayor. Or I'm going to 14 assign you this extremely powerful committee 15 position, and again, you're going to be part of the 16 FEDCO team, and we're going to push forward my 17 agenda. 18

And I'll just say that I took the mayor 19 out for lunch in the summer of I think it was 2020, 20 and I said -- because we were approaching the 21 midyear point of this term of council, and there 22 was -- were some informal changes that were coming. 23 We do not have an automatic review at the halfway 24 point of a term where positions are changed. Ι 25 think that should happen. 4 years is way too long.

26

1 But I said, Listen, mayor, you know I've vice-chaired the school board, vice president of 2 3 the provincial organization. The day I was 4 elected, I was the national vice pres of the 5 third-largest professional association for federal 6 public servants in Canada. All my community work, 7 budget chair for 4 years at the school board. You 8 know I can do this stuff. He's like, Absolutely. 9 Absolutely I know that. But I need a cabinet --10 these are his words: I need a cabinet that will 11 get my agenda forward, that will support the work 12 that needs to get done. And it's not that I'm a 13 renegade, but I do ask questions, and I will not be 14 told how to vote.

15 I vote in the best interests of my 16 residents. I take every issue one by one. 17 Sometimes my vote happens to be the same as the 18 mayor's. Other times, my vote is not the same as 19 the mayor's because I've taken the time to assess 20 each item on its merits for what I think is best 21 for our city. And at times, that is friction for 22 the mayor, and so if you can't have one of your 23 senior committee chairs or a deputy mayor aligned 24 with you, I don't want you. I don't want the media 25 picking up that a deputy mayor is voting the other

1 way or a committee chair on a matter. 2 So that's -- that is the structure that 3 And if you don't believe me, look at the we have. 4 voting records. I mean, they speak for themselves. And -- and look who is talking at committee and 5 6 council and who's not. We have some members who, in an 8-hour meeting, will not say a word - and I'm 7 8 not exaggerating - and it's some of the same people 9 consistently in these long, contentious meetings 10 that will never contribute or ask a question in 11 public. Maybe they're doing it all in private and 12 they're happy, but it's very bizarre. Very 13 bizarre. 14 LIZ MCLELLAN: How are the chairs of 15 committees decided? 16 RILEY BROCKINGTON: So there's a lot of 17 planning in the mayor's office. They come with a 18 recommendation to a committee that's called -- I 19 don't know what the name of the committee is. 20 It's, like, the organization committee, or it's got 21 some name, and it's for optics vetted through them. 22 Decisions have already been made, but we'll bring 23 it to a committee, and we'll have the committee 24 approve it, and then it will come to council. But 25 it's already been -- staff don't do this. There's

1 no independent body. It's the mayor's office that 2 picks who goes where, come through this committee 3 which is populated in the majority with the mayor's 4 team, so he gets his majority, right? Everv 5 committee has the mayor's majority on them. And it 6 comes through council. So when the mayor is 7 approached publicly or by the media that says, 8 Listen, all your team members have these positions, 9 he can say it went through committee, and it went 10 through council, and council adopted it. It's not 11 me - council approved it. So...

LIZ MCLELLAN: And are those recommendations -- I mean, you've said it's through the mayor's office. Are those recommendations for the chairs of these committees based on people that you would -- or based on, sorry, councillors that you would say are within -- I've heard it referred to as the Watson Club?

19 I don't use RILEY BROCKINGTON: Yeah. 20 that term, but I'm certainly aware of that term. I 21 will just back up with -- we are provided a survey 22 in advance, and we are asked what our -- what our 23 preferences are. Where would we like to serve? 24 That then goes up, and that's part of this big, you 25 know, map that people's names are plunked into.

1	And I've not seen it, I'm not part of that, but
2	I I do want to just correct myself and say we
3	are provided a survey and asked where we would like
4	to serve, so that's sort of the the start of
5	that. Excuse me
6	LIZ MCLELLAN: And that's oh, sorry,
7	go ahead.
8	RILEY BROCKINGTON: No, I have nothing
9	else.
10	LIZ MCLELLAN: And okay. And to
11	confirm, obviously, chairs of committees are very
12	important because the chairs of committees are
13	members of FEDCO.
14	RILEY BROCKINGTON: Absolutely.
15	LIZ MCLELLAN: You mentioned ad hoc
16	questions with the general manager that would occur
17	during your time on the Transit Commission. Is
18	that something that happens?
19	RILEY BROCKINGTON: Yeah, you can
20	basically ask anything. I mean, the rule of thumb
21	is if we're talking about bus service, you're not
22	going to ask about how collective bargaining with a
23	union is going. You have to ask questions that are
24	germane to that agenda item. However, we have
25	opportunities at the end of our agenda through

i alog	
1	either other business - which is rarely, if not
2	never, used - or public inquiry, which is used much
3	more frequently, to submit written questions which
4	staff reflect on and provide a written response
5	publicly released.
6	LIZ MCLELLAN: I think you mentioned
7	phone calls, though; is that correct?
8	RILEY BROCKINGTON: Have I had phone
9	calls with folks?
10	LIZ MCLELLAN: I think you mentioned
11	that you could, you know, have a phone call with,
12	for example, Mr. Manconi, you said, the general
13	manager. Is that the case or part of the process?
14	RILEY BROCKINGTON: Well, I can pick up
15	the phone and call anyone in the organization.
16	It's not a it's not part of the structure for
17	information dissemination, but I can call anyone
18	and and get information on any time, but it's
19	it's not like it was, if you'd like more
20	information about such and such, please call me.
21	You know, every general manager says if you need
22	anything, simply reach out to me, but I just want
23	to be clear that the normal structure for reporting
24	is through the Transit Commission. And to
25	supplement that, staff normally and this is a
1	

1 regular occurrence is they -- they basically 2 circulate an information memo. This -- just 3 yesterday or two days ago, the Transit Commission 4 We are having an issue with the new Canada met. 5 Labour Code requirements for built-in breaks with б our bus drivers. It's going to require the 7 addition of more -- the hiring of more drivers. 8 It's a basic -- it's a convoluted issue because 9 they've left it to the end, and there's now impacts 10 on service. And I said, listen, there are some 11 Transit Commissioners that are absent this morning, 12 and we are only a subset of council, so most of 13 city councillors aren't here. Can you please issue 14 a memo to all of the city council and commissioners 15 articulating what is the problem, how are we going 16 to get out of the problem, the union was raising a 17 stink in the media last week. Can you just 18 summarize these three components so everyone's on 19 We're all getting the same page, right? 20 information here and there. The -- the information 21 broke on the front page of the Citizen by the 22 union. As a commission, we shouldn't be getting 23 information that way, right? The GM should know --24 if she knew this was an issue, you issue a memo, 25 you get ahead of it, you control the message, but

1 you make sure your commissioners are educated on 2 the whole issue, not the dribs and drabs that we're 3 going to read in the newspaper. 4 Liz McLellan: You mentioned between 5 January and, I believe, April, there weren't -- I think you said that you didn't have any Transit 6 7 Commission meetings. Obviously, the pandemic 8 happened in late March, so for January and 9 February, there were no Transit Commission 10 meetings? 11 RILEY BROCKINGTON: That's correct. 12 No --13 Is that irregular? LIZ MCLELLAN: 14 RILEY BROCKINGTON: Sorry? 15 Liz McLellan: Is that irregular? 16 RILEY BROCKINGTON: Well, it happened 17 again this year. The Transit Commission -- I don't 18 know if it's in our charter, whether it says we --19 how many meetings per year. Normally, committees 20 take a break for 6 to 8 weeks in the summer. 21 That's normal. Planning Committee might have to 22 meet more frequently because there are legislative 23 requirements to get certain applications through. My point is we had a critical infrastructure 24 25 failure on the biggest infrastructure project in

25

¹ the city of Ottawa's history, bigger than the ² canal. We should be getting at least monthly ³ updates, at least monthly updates. And we went ⁴ 4 months at the beginning of 2020 without a ⁵ regularly-scheduled Transit Commission meeting. ⁶ That is a significant problem for me.

7 Why is that the case? You asked me that 15 minutes ago. I've given you some reasons, 8 9 but why? Why did Sarah Wright-Gilbert become 10 famous, our transit commissioner, our citizen 11 transit commissioner? Because neither the mayor 12 nor the Transit Commission chair were public, were 13 speaking to the matter, were before the press to 14 inform the public what's going on, what are we 15 doing about it, how can we reassure the people of 16 Ottawa that the system is safe and that we're on 17 They disappeared. And it -- the -- the media it. 18 went to a transit commissioner who was very able 19 and willing to talk and articulate herself. And I 20 like Sarah, but really that wasn't her role. Τt 21 was the role of the mayor and/or the Transit 22 Commission chair to show leadership and stand up, and they didn't. And we went without a meeting, a 23 24 regular scheduled meeting for 4 months.

LIZ MCLELLAN: In your opinion, was

1 that a scheduling issue, or do you think there was 2 a reason behind it? 3 RILEY BROCKINGTON: We had COVID in 4 mid-March, so I will grant the March meeting not 5 happening. But January and February, there was no COVID pressure. All the other committees and 6 7 council were running well, and we weren't. So I 8 have no issue with committee meetings being 9 cancelled if you have light business that's not 10 critical, that you can roll over to the next month, or if there's no business, or if there's an 11 12 emergency with staff who are critical to report at 13 a -- then you reschedule. Hey, these things 14 happen, and I believe in being reasonable. But 15 Transit Commission did not meet for 4 months during 16 the most critical period of this City's history 17 with respect to an infrastructure issue. 18 LIZ MCLELLAN: How far in advance 19 before a commission meeting do you receive the 20 agenda? 21 RILEY BROCKINGTON: Normally, it's 22 about 7 to 10 days, approximately. 23 LIZ MCLELLAN: Are there ever 24 amendments to the agenda prior to the meeting? 25 RILEY BROCKINGTON: Rarely. Ιt
1 normally happens at the meeting. 2 LIZ MCLELLAN: And how often or at all 3 did you see Stage 1 as an agenda item, you know, 4 being on that initial agenda that you received 5 7 days in advance, let's say, and then being 6 removed at the time of the meeting? Or did that 7 happen? 8 RILEY BROCKINGTON: I don't think so. 9 I -- once my motion passed, it had to -- it has to 10 be there. The chair does not have discretion, and 11 it has never come off. 12 LIZ MCLELLAN: Why is information 13 provided -- why do you feel that the information 14 provided to the Transit Commission is more 15 consistent now, and does that coincide with the 16 transition between Mr. Manconi and Ms. Amilcar 17 stepping in as the general manager? 18 RILEY BROCKINGTON: I think we're in a 19 different phase of LRT. The LRT in the -- the 20 past, short-term, has been running consistently. 21 There are hiccups you see, train down, and it's 22 down for a short period of time. I assume staff 23 are dispatched, they get the issue fixed, or at 24 least they tow the train carriage back to the yard, 25 they get it off the line, and -- and Bob's your

1	uncle, and and the line can be fully functional
2	again. But these these more significant issues
3	that were happening shortly after the LRT opened
4	and then consistently for, what, 18 months were
5	much more serious in nature and had much more
6	serious ripple effects. Ms. Amilcar's style is
7	different. Her reporting is a bit different.
8	She's gone into more details. Her reports have a
9	different style to them.
10	It's OC Transpo, I think, is
11	ingrained in how they've always done things. If
12	you look at the type of data that gets reported out
13	to us, the metrics, we went, what, 4 or 5 years
14	without any performance metric data provided to the
15	Transit Commission to understand how we're
16	operating. Like, to me, that is I that, to
17	me, is a total head-scratcher. And now the metrics
18	that we have, in my opinion, are so confusing to
19	the layperson, we have really no understanding. As
20	I just said this week, we're getting these
21	high-level, macro-level data data points or data
22	metrics that really don't tell us the story of
23	where the problems are and how we can understand as
24	a Transit Commission where those problems are, how
25	do we direct resources to fix those problems, what

¹ is staff doing on particular bus routes, for ² example, to make sure that reliability issues are ³ addressed. So that's my background is data, and ⁴ you can bury a lot of bad stuff when you release ⁵ macro-level data that doesn't show the picture. ⁶ And trying to get information and steering them in ⁷ a different direction has been challenging.

8 I'll just -- one final exam -- example 9 to give you is at almost every single meeting since 10 COVID started, the two main cohorts, the two 11 largest cohorts of public transit users in Ottawa 12 before COVID started were federal public workers 13 and post-secondary students. The federal public 14 servants represented approximately 25 percent of 15 all public transit users in Ottawa, and they are 16 down to minuscule numbers of -- riding it today 17 because the federal government has a hybrid or 18 work-at-home model that they've endorsed. Some 19 public servants do work in the office still, and 20 some do take public transit, but I'm saying in the 21 grand scheme of things.

And we know that postsecondary students still - although it's been much better this past semester - were studying from home, or at least a hybrid model. They were a massive segment of our

1 public transit as well. And what have I asked 2 every meeting? Well, what is the intelligence that 3 you have gathered with these two main entities to 4 formulate a roadmap of when they're coming back. 5 So for budgeting purposes, our transit б revenue are way down. There's carnage throughout 7 the system, financial carnage throughout the system 8 because of the impact COVID has had on transit 9 ridership and subsequent transit revenue. And they 10 can't answer that question. Are they not having 11 discussions with the Public Service Commission on 12 their plan? And if the plan is, well, what are we 13 estimating, because their ridership estimates for 14 2022 were grossly -- way too liberal, and we have 15 not even come close month to month to month so far 16 for meeting any of those transit ridership 17 projections. And they were challenged repeatedly 18 by me last year going through the budget, and every 19 month I'm saying, Just give us the data. They 20 haven't. They haven't. 21 So I don't know why that is. Either

they haven't done it, or they have it and they don't want to release it, but the -- both are negligent. When -- when a Transit Commission is talking about its two largest cohorts, simply tell 39

1 us what's the plan to get kids back to school in 2 Ottawa this fall. Is it looking good? Great. 3 Share that information. And for public servants, 4 well, it's going to be at least a 3- to 5-year plan 5 before we see any stability, and maybe we'll hit 6 60 percent if we're lucky, but we need that 7 information. Anyway, sorry to give you a long 8 answer. 9 LIZ MCLELLAN: No, that's okay. You 10 can provide as long of answers as you want. So 11 what aspects of the LRT did council make -- or, 12 sorry, what aspects or decisions of the LRT did 13 council make during your time on City council? 14 RILEY BROCKINGTON: I need a little 15 clarification on your question. 16 So from 2014 to 2018, LIZ MCLELLAN: 17 what were the main decisions that council was 18 involved in on Stage 1? 19 RILEY BROCKINGTON: I can't recall, 20 particularly at the beginning of the term, because 21 that, to me -- that would have been when there was 22 actually opportunity to make decisions. Really by 23 the end of the term, considering the line opened, 24 what, in the fall of 2019, we would not have been 25 making any critical decisions, like, in the latter

1 part of the first term. 2 So, you know, the decisions to go ahead 3 with Line 1 and all the key decisions on awarding 4 that were prior to me getting elected and coming to 5 office. So I can't recall specifically what key 6 decisions we made. We were certainly getting 7 updates on the construction. We were certainly 8 getting updates on delays that were being 9 experienced. And we may have given direction to 10 the City manager that we wanted, you know, maybe, 11 at that time, more updates. I can't remember when 12 sort of the more serious legal updates would come 13 in and what our legal rights were at that point, 14 but -- I can't recall critical decisions about 15 Phase 1 during the first term of office because I 16 think the key decisions made on -- first of all, to 17 go ahead with the whole construction project and 18 who to tender it to were made before I was elected. 19 Okay. So in terms of LIZ MCLELLAN: 20 procurement, for example, that would have been 21 before your time is what you're saying? 22 RILEY BROCKINGTON: That is my 23 understanding. 24 Okay. So let's turn to LIZ MCLELLAN: 25 construction, then. How would you describe the

1 City's role during construction? 2 RILEY BROCKINGTON: Well, it's hard to 3 say because I'm, you know, not engaged on the 4 day-to-day operations of the construction. We. 5 again, would get updates on how things were going, б and at some point it looked rosy and on schedule, 7 and then obviously that morphed to we're behind and 8 there are delays with this project. I can't qo 9 into a tunnel like I did and start pointing out 10 what's wrong with -- with what's being constructed. 11 That's just not my expertise or ability. I trust 12 the experts who are reporting back to us that the 13 information that we are receiving has been 14 well-researched and it is the truth. And we have a 15 system in place where we can ask questions, we can 16 learn more about stuff, you can have a -- a more 17 in-depth briefing upon request, even after the briefing to a committee or council if you're 18 19 interested in a particular subject, but that's 20 basically it.

I think there were opportunities where we took tours as a group at least once or twice to certain stations. Before it opened, I did go into the tunnel by the University of Ottawa. We went in the mouth there. I think we rode the train from --

1	I don't know if we rode it from I want to say
2	the train station. Anyway, I I think those were
3	two separate maybe I'm blurring them. But
4	anyway, there were opportunities during
5	construction as a group as well to visit a
6	station I think we visited Belfast Yard at one
7	point as well. But with respect to construction,
8	that's basically it. It's similar to LRT Phase 2
9	now, right? Phase 2 is going on and it's going on
10	in my ward. We get updates, but we get written
11	updates, we get verbal updates at FEDCO.
12	I'm a little more engaged on Phase 2
13	just because it's in my ward, and and I see the
14	impacts and they're asking for noise exemptions and
15	I'm asking about how certain, you know, projects
16	are going because they're actually impacting my
17	residents. So I'm on that, just by default, as one
18	of the ward councillors. You just happen to be
19	more aware of how things are going than, like, the
20	east end extensions, west end extensions, right now
21	I'm getting the updates, but I it's so far away
22	from my current ward, I'm just not as involved as I
23	am with the Trillium Line extension because that
24	goes right through River Ward.
25	LIZ MCLELLAN: Okay. You mentioned

43

1	that the updates on the construction schedule went
2	from rosy to all of a sudden there was mention of
3	delays. How was that communicated and how did the
4	communications change?
5	RILEY BROCKINGTON: Well, this was
6	normally broken at the Transit Commission.
7	Mr. Manconi would come, and he would provide an
8	update to us. There was no advanced warning about
9	what the message would be. I would see him or I
10	would walk with him in the hallway, and I would say
11	jokingly, like, oh, you look good today; you had a
12	good sleep; you must have good news for us, and
13	he's like, well, you'll see, Councillor, when I
14	when I present today. And, you know, we
15	consistently received bad news that the progress
16	was not where it was, that there were more delays.
17	They kept giving dates which I think was wrong,
18	right, because the expectations were that it would
19	be ready by a certain date. We would not meet
20	that that date, and of course, there would be
21	public disappointment and then a new date would be
22	established, which wouldn't be met. Finally, I
23	think that date setting was discontinued, but that
24	information was first shared at Transit Commission.
25	LIZ MCLELLAN: So you would have been

1	on the Transit Commission for all for the
2	announcement and later postponement for all three
3	revenue service availability dates; is that
4	correct?
5	RILEY BROCKINGTON: I was on the
6	Transit Commission officially as of December 2018,
7	but I was attending Transit Commission meetings
8	intermittently during my first term because any
9	member can go to any meeting, and transit is a
10	passion of mine and certainly requires my presence.
11	LIZ MCLELLAN: So you were probably
12	only there for the third RSA date in March 2019,
13	the missed date?
14	RILEY BROCKINGTON: On on as an
15	official transit commissioner, that would be
16	correct.
17	LIZ MCLELLAN: Okay. And do you
18	believe that Council received satisfactory
19	information about the construction process?
20	RILEY BROCKINGTON: That's hard to say,
21	because I don't know if there was information at
22	the time that we were being updated that was not
23	being shared with us. It's difficult to break this
24	news to council. I'm sure this was very difficult
25	for Mr. Manconi, despite the fact that he handled

1 it with true grace and professionalism. I think 2 that certainly as we -- if we get into discussions 3 about, you know, the awarding of the contract for 4 Phase 2, there definitely was information withheld from council at the time of making a decision. 5 Ι 6 can't truly say we had all available information. 7 As a decisionmaker, I want all relevant information 8 to help me make decisions, and it's my job, if I 9 don't have all the information I need to make a 10 decision, to ask more questions and to probe and to 11 get into it. And either they're going to give me 12 that information, or they're going to say, 13 Councillor, I simply don't have that information, 14 right, that that information doesn't exist. 15 But if you're a critical thinker, and 16 you are missing information, like I just said, to 17 make decisions, you've got to ask more questions. 18 That's why it's so bewildering to me that so many 19 of my colleagues were silent through this process 20 and are silent through some of the other critical 21 processes we go through as a council. 22 LIZ MCLELLAN: And how -- I'm sorry, go 23 ahead.

RILEY BROCKINGTON: No, go ahead.
LIZ MCLELLAN: During the construction

1 phase, did you feel that Mr. Manconi's and 2 OC Transpo -- the updates were satisfactory? Were 3 you receiving regular updates, whether it be 4 through Council or through the Commission? 5 RILEY BROCKINGTON: Yeah, I think one of the common refrains I had -- and I'm not on the 6 7 same level as these guys, but, you know, I've run 8 projects in the government where I was responsible 9 for, and I had a very detailed, you know, project 10 schedule. I used to work at Stats Canada, and you 11 would have a survey that would run 18 months, and 12 there's a start and a finish. And there's probably 13 200 tasks that need to be done, and as the manager, 14 you know how -- how long each task should take, 15 what is concurrent or what are sort of separate 16 tasks, like one leads into another, and I've got to 17 map all of this out. And I kept saying to 18 Mr. Manconi at these public meetings, like, what 19 are the outstanding tasks that need to be done to 20 get us to the finish line? How long does each task 21 So you -- when you're meeting with RTG boss take? 22 Mr. Lauch, you can say, Well, listen, you said 23 there were - I'm just picking a number - six tasks 24 left. They each take 3 weeks each to be done. 25 You're having weekly meetings - or probably more

Τ

1	frequently than that - and you just get these
2	updates. How are we doing? What are the issues?
3	Why can't you make it? And that constant
4	pressure and I know Mr. Manconi had that
5	constant pressure on them, but I never saw that.
6	And so as a transit commissioner,
7	looking to see if, you know are these dates that
8	they are re-creating realistic? And if you can't
9	answer me, what's the remaining work that we have
10	to do? What is the estimated time period to
11	complete each task? Are we actually going to meet
12	the goal? Then I start to have doubts. Because if
13	you don't know what work is left and how much time
14	it's supposed to take, and you can't measure RTG in
15	getting it done, we're probably not going to make
16	that target. Or at least I have less confidence
17	that we're going to make it. So that was a common
18	refrain I recall I had, was like, well, do we even
19	know what's outstanding? And do they have the
20	resources, does RTG and the crews have the
21	resources they need to get that done? So I think
22	that was one gap I I certainly recall asking for
23	on more than one occasion.
24	LIZ MCLELLAN: In your opinion, did

LIZ MCLELLAN: In your opinion, did Mr. Manconi or OC Transpo just not have the

1 information, or was the information just not being 2 shared and select information was being shared with 3 council or the Transit Commission? 4 RILEY BROCKINGTON: I -- I don't know 5 how to answer that question. My gut says, like, б how do you not have that information? And if RTG 7 wasn't disclosing it to Manconi, then we have a 8 bigger problem here. Because they should have 9 been, like, you know, blood brothers, that they 10 should have been -- despite wearing two different 11 hats, this was a collective project, and they 12 should have been completely in line or in step with 13 each other in getting this done. 14 And I think that RTG -- my gut would be 15 that RTG was reluctant to share a lot of 16 information at times. Certainly Manconi had some, 17 but I was just surprised when we would ask, well, 18 what are the remaining tasks, as I just said, and 19 timelines? I don't recall that information being 20 forthcoming, and I don't recall details. 21 LIZ MCLELLAN: What gave you the 22 impression that RTG was reluctant to provide 23 information? 24 Well, first, they RILEY BROCKINGTON: 25 wouldn't appear at the Transit Commission.

1 When Mr. Manconi was speaking on their behalf. 2 they finally did appear and as soon as they were 3 dismissed, they literally ran out the 4 door - literally, physically ran out of the 5 committee room - and didn't want to speak or 6 certainly be approached by the media. I think I 7 could just read from Mr. Manconi a general sense of 8 frustration that commissioners were asking 9 questions that he just couldn't -- he just didn't 10 have information that he could share with us - not 11 that he was being held back, but he just didn't 12 have it. 13 And again, I -- you're asking me 14 questions like what are my gut -- what's my gut 15 That's certainly the sense that I had telling me. 16 was that there -- there wasn't sort of the free 17 flow of information that you would think. Now, 18 maybe for legal reasons or proprietary reasons, 19 whatever, you know, RTG just didn't want to share 20 everything, but that was the sense I had for sure. 21 LIZ MCLELLAN: What do you mean by RTG 22 wouldn't appear? 23 Well, my colleagues RILEY BROCKINGTON: thought it would be beneficial, if we had questions 24 25 about the various delays with construction, to have

50

1 RTG present in front of the Transit Commission, so 2 transit commissioners in addition to getting an 3 update from Mr. Manconi and asking him questions, 4 to do the same with Mr. Lauch, Peter Lauch. And at 5 the beginning, that request was denied. And we got 6 to some point where RTG did show up and did show up 7 on more than one occasion, which was great, and 8 Mr. Lauch took some tough questions. But he had to 9 be there for the integrity of this job and for 10 public trust and confidence not to be completely 11 shattered. He had to come up there really to save 12 the company and take those questions and provide a 13 more detailed explanation than what Mr. Manconi --14 Mr. Manconi does not -- did not speak for RTG. 15 Mr. Lauch did. He was the CEO. And I'm grateful 16 that happened, but my understanding is at the 17 beginning that wasn't -- that wasn't -- the offer 18 was not accepted. 19

¹⁹ LIZ MCLELLAN: And what do you think ²⁰ changed, why Mr. Lauch all of a sudden was willing ²¹ to appear?

RILEY BROCKINGTON: Well, either his - his bosses said you -- thou shalt go and attend.
I'm sure Mr. Manconi was clear on multiple
occasions to come. I think Mr. Lauch read it in

1	the media, both with the project, but also that
2	members of council had made this request. The
3	longer you don't come, I think, the worse it gets,
4	right? The snowball gets bigger and bigger as it
5	rolls down the hill. And if you support your
6	project, if you stand by your project, then you
7	will come and you will take those questions, right?
8	Why hide? You'll come. And I asked Mr. Lauch,
9	like, how confident are you? There's that
10	there's a famous clip that keeps getting played, I
11	said, How confident are you that you're going to
12	meet this deadline? He said, I am confident. But
13	anyway, that's sort of my feelings on that.
14	LIZ MCLELLAN: And which deadline were
15	you referring to in that question, the clip that
16	you're referencing?
17	RILEY BROCKINGTON: That they'll meet
18	one of their dates, handover dates.
19	LIZ MCLELLAN: Okay. What City
20	consultants did you understand to be active during
21	the construction phase? Or who were you
22	interacting with in conversations?
23	RILEY BROCKINGTON: For Phase 1?
24	LIZ MCLELLAN: Yep.
25	RILEY BROCKINGTON: Well, in addition

Τ

1	to the LRT team, in addition to RTG, the main body,
2	I I have to really think about that one.
3	LIZ MCLELLAN: Okay.
4	RILEY BROCKINGTON: Yeah.
5	LIZ MCLELLAN: And that's okay. I
6	guess, do you remember any key players, or you're
7	just kind of you kind of remember, you know,
8	Mr. Manconi and Mr. Lauch coming in and council?
9	And if that's the case, that's okay.
10	RILEY BROCKINGTON: Yeah, they they
11	were, of course, the main folks. We had, of
12	course, I think Chris Swail Swail a few
13	players who are no longer with us who decided to,
14	you know, either retire or take other
15	opportunities. But obviously Mr. Manconi was
16	other than the city manager, the senior staff, city
17	staff leading this and Mr. Lauch. It's hard to
18	differentiate, sorry, with Phase 1 and Phase 2
19	because we're two different projects, and then
20	what's happened more recently with sort of legal
21	issues with Phase 1, but I'm sorry, I I
22	really have to think about that one.
23	LIZ MCLELLAN: Okay. In your view,
24	were there any events or occurrences during the
25	construction that might have caused or could be

1 attributed to Stage 1's breakdowns or derailments? 2 RILEY BROCKINGTON: I cannot sav 3 anything with any type of evidence to back it up, 4 other than my understanding was that there were 5 reports in the media from workers, construction workers in the tunnel, who brought issues to 6 7 people's attention. The one that I can recall is 8 basically the lining of the tunnel -- it's like the 9 roof of the tunnel, and just a way that that was 10 being built, I believe that that was in the public 11 I never received, like, any hot tips or domain. 12 private, you know, back alley type of discussions 13 where a construction worker or foreman said, you 14 know, listen, we're doing something here that is 15 That never came to not to code or it's not safe. 16 The only thing that I can recall my attention. 17 that questioned how things were being built were 18 through either former workers or -- I don't know, 19 still -- you know, workers who were still employed 20 who had certain issues with how it was being built. 21 But I can't recall any deficiency with how this was 22 built that led to the number of challenges or 23 problems that we saw after the line opened. 24 So I think we spoke LIZ MCLELLAN: 25 about the information that you believe was flowing

23

1 between RTG and the City during the construction 2 phase. How did you see the relationship between 3 the City and RTG change during the construction 4 phase, if at all? Maybe you didn't see it change. 5 RILEY BROCKINGTON: Yeah, again it's -б it's -- it's more of a gut feeling than evidence, 7 right, than facts. When the marriage begins, everyone's happy, right? When -- when construction 8 9 starts, construction starts. And it isn't until 10 you start to discover either geotechnical issues or 11 certain tasks take much longer than you estimated 12 for, and that starts to put pressure on the project 13 itself, and -- and you start not meeting deadlines. 14 And then they've got to report back to Manconi, who 15 reports back to us, and it becomes public, then 16 people are critical. That impacts humans. And I 17 suspect that as this went on and on and deadlines 18 kept being missed and missed and Mr. Manconi kept 19 communicating our dissatisfaction that it would 20 have impacted the professional relationship. 21 To Mr. Lauch's credit, he always 22 appeared as a professional, calm individual who

²⁴ Commission answered questions to the best of his
²⁵ ability and was always professional. I respected

when, again, he appeared before council or

1	that about him. But I suspected that, as I said,
2	the longer it went, you know, the City had
3	objections with the RTG saying, well, we're ready
4	to go, and no, you you're deficient in these
5	areas or maybe it didn't meet certain testing
6	requirements or criteria. You had one party say
7	we're ready, the other party says no, you're not.
8	And every time there's a delay, right, payments
9	aren't being made and revenue service doesn't
10	start. So I would only suspect that it was
11	fractious by the end, as opposed to more rosy at
12	the beginning.
13	LIZ MCLELLAN: Was there any
14	information or what information was provided to
15	the Transit Commission and/or council regarding
16	winter testing that was conducted on the system?
17	RILEY BROCKINGTON: Yes.
18	LIZ MCLELLAN: And in your view, how
19	was the sufficiency of that information?
20	RILEY BROCKINGTON: Again, I would have
21	to dig deep to find that. Certainly the Commission
22	and council was interested in a robust winter
23	testing. I cannot recall chapter and verse what
24	that would entail. I seem to recall some again,
25	I can't recall specifically, but we wanted

1 assurances that the integrity of the line and 2 carriages would not be compromised in our cold 3 Obviously after the fact, there were climate. 4 switch issues with -- with the line itself that had 5 to be ironed out to do with snow and ice. It's the 6 same with our electric bus purchases. I -- you 7 know, I asked -- the City is going in a huge 8 direction to buy a billion dollars' worth of 9 e-buses, and I specifically amended the motion to 10 ensure they were Ottawa climate-able, that -- you 11 know, cold weather drains batteries, and we wanted 12 to make sure that this infrastructure would work in 13 The same thing with our LRT is that our climates. 14 we wanted reassurances that there would be adequate 15 testing in the winter. It's -- it's hard to test 16 in July and August or the spring and summer before 17 you hand it over for revenue service in September 18 to adequately test in the winter.

And so I think there may have been questions as part of the testing that we asked: When did you test in the winter? What was tested in the winter? Because this would have been, you know, 9 months before. Was the system ready at that point to be tested? Was there anything that was built after the winter of 2018/19 that just

1 wasn't tested? I can't recall those answers. 2 Again, I'd have to look back through documents, but 3 that was certainly one of many issues of concern 4 that we had. 5 LIZ MCLELLAN: So two issues, just if б you recall the Commission's general opinion at the 7 time. So you spoke to the readiness of the system 8 being tested in the winter of 2019. Did the 9 Commission feel that the system was ready based on 10 the information that you had? Did the Commission 11 have an opinion, I quess, on the readiness of the 12 testing at that time of the system's testing? 13 RILEY BROCKINGTON: Yeah, I don't know 14 with certainty. Even if this happened at 15 Commission, it could have been through a special 16 meeting the mayor called. I do know that shortly 17 prior to the announcement that this was ready for 18 passenger service, there was a meeting in council 19 chambers, and I recall actually sitting in the 20 gallery, not in my seat, and asking Mr. Manconi 21 questions about testing in general, not necessarily 22 winter testing, because we were all under the 23 impression that there would be 12 consecutive days 24 of flawless run, and we later found out that it was 25 It didn't have to be consecutive, just 12 days.

1	which even Joanne Chianello of CBC News said no
2	way, that we were all told 12 consecutive days.
3	You needed a system that was going to run
4	flawlessly – you know, no major problems – to
5	ensure that, hey, we're being handed over a system
6	that can take it. And we're going to put it
7	through its its, you know, various normal
8	challenges, and it's going to pass. And when
9	you've got 12 days done under your belt, then we'll
10	be satisfied that it's been able to handle what
11	you've put it through. But that wasn't the case.
12	It the sum was 12 days of testing,
13	but as we learned, there were some significant
14	issues that it had challenges with through that.
15	So that was a massive red flag for a number of
16	members of council, because we were under the
17	impression that the system was going to be tested
18	for 12 consecutive days. And my understanding is
19	that was that did not happen. That was not the
20	reality.
21	LIZ MCLELLAN: Okay. So we'll we'll
22	go back to the construction phase, but let's turn
23	to the trial running period and testing.
24	RILEY BROCKINGTON: Okay.
25	LIZ MCLELLAN: So what information was

59

1 initially provided as opposed to -- I don't know if 2 the majority of your information would have been 3 through the Transit Commission or through council 4 or through private -- perhaps not private 5 briefings, but briefings. What was the change in 6 information on testing that you saw? 7 RILEY BROCKINGTON: I can't recall. 8 LIZ MCLELLAN: Okay. 9 RILEY BROCKINGTON: We -- these are 10 critical questions, but I really -- I can't quess. 11 LIZ MCLELLAN: But it sounds, based on 12 your answer, that you understand or you came to 13 understand that there was a change in the criteria? 14 Yeah, it was late RILEY BROCKINGTON: 15 in the game when that was disclosed to council. 16 And I specifically recall it was in council 17 chambers, where they have the room, they had 18 special tables set up almost like a press 19 conference, and I was sitting in the gallery, which 20 never happens, and I specifically remember being 21 handed a microphone to ask questions because we 22 were getting a briefing. And it was at that point 23 that I said, I'm surprised to hear that it wasn't 24 12 consecutive days of testing. We've always been 25 under the impression - you go way back - that it

1 was, right? You can't -- oh, 30 minutes today, 2 good; we had problems the rest of the day; and 3 tomorrow, it's 2 hours good and then problems; and 4 we're just going to sum it up and come back to you 5 and say, hey, over the last period, we actually had б 12 days' worth when you sum it all up. No, we need 7 to ensure the system is bulletproof, you've put it 8 through all the tests, you've put it through every 9 type of situation that can be reasonably expected, 10 and quess what? The system worked. And now we're 11 at a point of confidence that we will take the keys 12 and we will receive it because the system has 13 passed. And it was at that point that Mr. Manconi 14 explained, no, the testing criteria is this, and 15 people were quite taken aback. 16 LIZ MCLELLAN: You said this was late 17 in the game that Commissioner --18 RILEY BROCKINGTON: M-hm. 19 LIZ MCLELLAN: -- or, pardon me, 20 council received this information. What do you 21 mean by that? 22 Well, it -- I'm --RILEY BROCKINGTON: 23 I'm going to guess that it was in 2019, and it was 24 probably fairly advanced in that year because we --25 we opened in September. Again, I -- I don't know

the exact date, but again, you want to make sure,
as an elected official, when members of the public
are about to take a brand-new train system that's
been delayed a year-plus, that's going through a
tunnel underwater, that all the bugs have been
ironed out, that it's safe, that it's been
thoroughly tested. And that caused concern.
LIZ MCLELLAN: So for clarity purposes,
I believe we're referring to the trial-running
criteria. And is it your opinion, then, that trial
running had already commenced at the time that you
found out that there was a change in the criteria,
or was it shortly before?
RILEY BROCKINGTON: So there's a
difference between testing and 12 days to get the
A-plus on the report card.
LIZ MCLELLAN: Right.
RILEY BROCKINGTON: The the system
is tested for months, if not a year-plus; right?
As soon as infrastructure, carriage complete, my
understanding through Mr. Manconi is you're
testing. You're testing all the time, which is
different than RTG saying the the line and the
carriages are done; we're at the stage where we're
almost ready to hand it over to you; council's

1	under the impression that, okay, it has to go
2	through now a robust 12 days of testing, and when
3	you pass, when you have no major issues because
4	I think there were some some minor leeway for
5	certain little hiccups, right, normal stuff. Okay,
6	fine. But you you go 12 days consecutively
7	without major issues, you pass. And at least I
8	was I'll speak for myself: I was under the
9	impression that that was a mandatory requirement,
10	and if any time during that 12-day period you
11	failed, you start back at 0, and you've got to go
12	another 12 days consecutively before you pass.
13	And
14	LIZ MCLELLAN: And you sorry, go
15	ahead.
16	RILEY BROCKINGTON: And that, at some
17	point either council was misinformed, because
18	I'm certainly not the only person with that and,
19	you know, people in the media who are quite smart
20	who follow this say no, no, no, no, council was
21	told something different. But then it was at this
22	meeting that I'm referencing in council chambers
23	where this 12 consecutive period all of a sudden
24	evaporated. And it was like, wait a second.
25	LIZ MCLELLAN: And do you recall when

1	this meeting was, or was it your opinion that
2	the that the testing period that you're
3	referring to, the 12 consecutive days, that they
4	were already in that process?
5	RILEY BROCKINGTON: I don't know the
6	exact date.
7	LIZ MCLELLAN: Okay.
8	RILEY BROCKINGTON: It absolutely
9	happened in council chambers. I was sitting in the
10	gallery, 100 percent. And I don't know if that end
11	of the project period had already passed and he was
12	basically commenting, yeah, we're ready to go, and
13	he was explaining the test testing that had
14	happened. My gut well, I don't want to
15	again, my gut is not evidence, but I I'm
16	thinking that's probably it, that he was reporting
17	back on the testing, and basically the testing has
18	been done or was positive, but again I I'd have
19	to go back and
20	LIZ MCLELLAN: Okay.
21	RILEY BROCKINGTON: I'm sure there's
22	there's media coverage of this particular meeting
23	because it was an open session.
24	LIZ MCLELLAN: Okay.
25	KATE MCGRANN: I'm sorry, perhaps we

Т

1	can take the morning break at this point in time.
2	LIZ MCLELLAN: Sounds good. So we can
3	come back at 10:36 if that works for you,
4	Mr. Brockington.
5	RECESS AT 10:26
6	UPON RESUMING AT 10:36
7	LIZ MCLELLAN: So just quickly, what
8	was the level of information that the Transit
9	Commission received on the derailments?
10	RILEY BROCKINGTON: Well, first it was
11	service information bulletins on Twitter, where a
12	train was out of service or there's a at least
13	a an interruption in service. Once staff could
14	get a better sense of what the issue or issues
15	were, there would be a usually an email. When
16	the GM needs to communicate with us right away,
17	they send an email. If there's more detailed
18	information, and they've had time to basically, you
19	know, catch their breath, sometimes a memo which
20	gives you more information, but when a problem is
21	live, it's basically email after email, right?
22	They'll build on an hour ago, here was the
23	issue, and now here's the latest, if the issue is
24	ongoing. And then at our next transit meeting,
25	there are opportunities again for information to be

1 shared with commissioners and for commissioners to 2 ask questions as well. 3 LIZ MCLELLAN: So did you first find 4 out, then, about the derailment on Twitter? 5 RILEY BROCKINGTON: I can't remember. 6 We had a much more frequent process of advising 7 commissioners about service interruptions than what 8 we do now. At some point, a decision was made that 9 service interruptions would not be disclosed -- or 10 at least shared to commissioners or council members 11 on the frequency that they once were. The 12 derailment is obviously more serious, and you -- it 13 got to the point where I honestly didn't want to 14 allow the service interruptions to -- to run my 15 dav. They were so frequent at times that, 16 obviously, I wanted to be aware and keep track of 17 them and understand what the root cause was, but 18 some interruptions are less serious and severe than 19 And if it's just a -- a train down at a others. 20 station and they're able to bypass it, okay, but I 21 don't really need to spend the next 3 hours 22 following this bit by bit. But the derailment is 23 more serious.

²⁴ My recollection is I was a lot more ²⁵ concerned about what the cause was, the fact that

1 the driver didn't know there was a derailment, that 2 there was no warning signal in the cab of where the 3 operator sits to indicate, hey, you've got a -- you 4 know, a partial derailment and you're towing it or 5 you're carrying it along the line. That, to me, 6 was the more startling point of that incident. 7 LIZ MCLELLAN: And what did you feel 8 the sufficiency of, like, the briefing information 9 once, you know, you got over the initial -- you 10 found out about the derailment, the Commission had 11 been made aware of the derailment, like, what was 12 the -- how was the information that was provided to 13 you in terms of completeness? 14 RILEY BROCKINGTON: Well, it takes time 15 to understand what the cause was, and I don't think 16 our staff knew all the answers right away. 17 Information was released over time, and, you know, 18 it took time to make sure that some changes could 19 be made to ensure that -- I know one thing we asked 20 consistently was just the warning. The operator 21 needs to know when something like this happens. 22 And there was no warning or signal in the cab that 23 indicated, hey, you've got a -- a partial 24 derailment and you need to stop. The train didn't 25 stop right away, and that -- you know, went over

1	the bridge, went over Riverside Drive, and that was
2	at least the main thing that stands out in my mind
3	about this incident, not necessarily at what point
4	did I get information and was it fulsome enough.
5	There's nothing that stands out in my memory that I
6	need to disclose now. It is more so I can't
7	believe this train continued to operate when it had
8	derailed.
9	LIZ MCLELLAN: And what was the Transit
10	Commission's involvement in responding to a
11	derailment?
12	RILEY BROCKINGTON: What do you mean by
13	responding?
14	LIZ MCLELLAN: Well, you know, so you
15	received the information, and then of course the
16	Transportation Safety Board was involved, but just,
17	you know, generally, like, responding to the in
18	terms of providing information or coming to a
19	conclusion about what happened, what was the
20	Transit Commission's involvement?
21	RILEY BROCKINGTON: We really receive
22	information. We weren't asked to take action, from
23	what I recall. We try and understand what
24	happened. We try and understand, as I said, why
25	the train didn't stop right away, why the operator

68

1	wasn't notified. We want to make sure that our
2	passengers are safe, that should this ever happen
3	again, the train automatically stops. I know in
4	some cases, trains are to continue to the next
5	station, but you don't want to be pulling a
6	carriage if it's off the track and you're going
7	over a bridge, for example. That's my number
8	one focus always is the safety of the public. I
9	want to make sure that the trains and
10	infrastructure are safe. You want to understand
11	why a problem happened, and we want to understand
12	why or what what are we doing to ensure it
13	doesn't happen again. I do think that is the role
14	of the Transit Commission is to say, all right,
15	tell us what happened and what are you doing - not
16	just to fix it, but to ensure this doesn't happen
17	again.

LIZ MCLELLAN: So more generally -and, I mean, you've spoken to this intermittently throughout this interview, but generally what is your opinion on the information that council, the Transit Commission, received on Stage 1 and some of the issues that arose?

RILEY BROCKINGTON: That's a big
question.

1 LIZ MCLELLAN: Yes. Apologies, but 2 just generally, how do you feel about the 3 sufficiency of --4 Well, you know, RILEY BROCKINGTON: 5 we -- I think we have a pretty good sense of what б the main issues were: infrastructure, whether it's 7 the catenary, the brakes, the doors at the 8 beginning; the switches we talked about, the winter 9 condition of the switches; and others - I think, 10 you know, technical - computerized components in 11 the -- in the cab itself. You know, the -- the 12 main issues were short-listed. We were getting 13 frequent updates by Troy Charter on the repair and 14 remediation of these issues, and one by one they 15 were finally addressed, and I think that was 16 reasonable. 17 Maybe at the -- at the beginning, we

18 Like, at the beginning, there were didn't know. 19 problems. We didn't know what the root cause --20 were they one-offs? Were there -- were there, 21 like, structural issues with the construction of 22 these issues? You know, finally with the 23 derailment -- derailment, they did, you know, 24 basically, a forensic investigation. You finally 25 find out a bolt wasn't put on properly because, you

1	know, that that was some good work that finally
2	gets to the root of that cause, but yeah. We
3	have consistently received updates on, you know,
4	the main issues or problems with the line, and
5	basically monthly, the progress being made.
6	I do think the Transit Commission had
7	adequate time to ask questions and really get into
8	the meat and ensured no stone was left unturned.
9	But the problem at the beginning is, well, what is
10	the problem? And is it a one-off or, like I said,
11	a structural issue? And if it's structural, then,
12	oh my gosh, what do we have to do to fix this, and
13	is it related to one carriage or is it related to
14	all carriages?
15	LIZ MCLELLAN: Is there anything that
16	you think that we should have covered today that we
17	did not cover and you would like to discuss?
18	RILEY BROCKINGTON: No. I mean, I
19	would like the inquiry to determine whether or not
20	people were instructed to withhold information from
21	council or or the public as a whole. I want to
22	know whether or not I don't know. That's a main
23	one for a lot of people. Obviously, I I want to
24	know whether the trains or infrastructure were
25	knowingly not constructed to spec for any reason -
1 to save money, because they didn't have resources. 2 Because they were behind schedule, did they rush 3 We need to instill confidence back. it? If we're 4 going to have long-term success with this line, we 5 need the public to have confidence and trust in 6 both the integrity of the infrastructure and 7 carriages but also the system, the people who 8 govern this, their elected officials.

9 I don't favour witch hunts. I just 10 want the truth to come out. And if there's 11 information that I have not been able to be fulsome 12 with you today that you would like me -- you have 13 additional questions for me, I would be happy to, 14 you know, look through my notes, email, whatever and -- and come back. I will certainly do that, 15 16 but at the end of the day, it's how did this go so 17 far off the rails, and how can we ensure this --18 this doesn't happen again.

There will be a Phase 3 at some point.
There will be other infrastructure projects. And
if there are project management issues as well,
then by all means, but thank you for asking that
question.

LIZ MCLELLAN: Thank you. And so our last question: Generally, the Commissioner is

1 considering recommendations that witnesses have in 2 terms of determining how something like this does 3 not happen again or these issues do not arise on a 4 future project. Do you have any recommendations 5 for the Commissioner's consideration? 6 RILEY BROCKINGTON: T think if there 7 are deficiencies in how information was released --8 there's so many parties working on Line 1, and if 9 there are better ways to ensure information is 10 reported out publicly, I think that should be a 11 recommendation. If -- if major -- I don't know 12 if -- if Council is told one thing -- like, I'll 13 just go back. The testing of 12 days, for example: 14 If things change, it's like, how do you inform 15 Council and the public, whether criteria get 16 changed, deadlines get changed? I don't know if 17 there's a recommendation there, but... Again, I --18 I have to think about that, but at the end of the 19 day, we need the public to know this is a safe 20 system and that, going forward, if -- if mistakes 21 or if we can -- as a corporation can improve on how 22 we do things, I think that's fair game. We -- I 23 want that. I want us, as a city, to grow better as 24 an outcome here. So whatever that -- can be 25 recommended in that regard, to me, is a benefit.

1 I'm not looking, as I say, to tar and feather any 2 person individually. Rather, how do we make sure 3 this whole process is better going forward? 4 LIZ MCLELLAN: Okay. Well, thank you 5 very much for your time, Councillor Brockington. Ι think we can go off the record, and -- oh, pardon б 7 Mr. Wardle? me. 8 Sorry, I just have a PETER WARDLE: 9 couple of questions for Councillor Brockington. 10 So, Councillor, you indicated earlier 11 in your -- your answers to my friend that there 12 were no Transit Commission meetings between January 13 and March of 2020, and I just wanted to indicate 14 that we have produced to the Commission minutes of 15 Transit Commission meetings which took place on 16 January 23, 2020, and February 19, 2020, and the 17 document numbers are COW0000239 and 245. Ts it 18 possible, Councillor, that the time period you're 19 remembering is from March to May of 2020, rather 20 than January through March? 21 RILEY BROCKINGTON: It's possible. Τ 22 will have to look at that. I do want to 23 differentiate a difference between what I said, 24 regularly scheduled meetings versus what could have 25 been special meetings. Regularly scheduled

Т

1	meetings have the normal agenda items and the
2	normal business on them. A special meeting is
3	usually held for one specific purpose. But in the
4	early part of 2020, we went 4 months without a
5	Transit Commission meeting, a regularly scheduled
6	Transit Commission meeting.
7	PETER WARDLE: Okay. And just to add
8	to that, you made reference to a request from
9	Transit Commissioner Sarah Wright-Gilbert, and is
10	it possible that your memory is mistaken and that
11	that was actually in October of 2019 as opposed to
12	March of 2020?
13	RILEY BROCKINGTON: Sorry, a request
14	for what?
15	PETER WARDLE: For a special meeting of
16	the Transit Commission.
17	RILEY BROCKINGTON: We have requested
18	through Chair Hubley on multiple occasions for
19	Transit Commission meetings.
20	PETER WARDLE: Right.
21	RILEY BROCKINGTON: So there were
22	multiple times this term of council where we have
23	asked not just once where we have asked the
24	Transit Commission chair to host special meetings
25	on urgent matters, all of which have been declined.

Г

1	PETER WARDLE: All right. Thank you.
2	Those are all my questions.
3	RILEY BROCKINGTON: Thank you.
4	LIZ MCLELLAN: Thank you, Mr. Wardle.
5	We can go off the record.
6	Concluded at 10:52 a.m.
