

Understanding the Archival Reference Code in the Ontario Land Record Index

How to Find the Reel of Microfilm You Need

Each entry in the Ontario Land Record Index includes a reference to the original record from which the reference was taken. This record can be viewed on self-service microfilm. Most, but not all of the microfilm reels can be borrowed through libraries offering interloan services. [Click here to access our online Microfilm Interloan Catalogue for further information.](#)

The Archival Reference Code is found on the far right of each entry in the Ontario Land Record Index. The first column in the 'ARCHIVAL REF' is labelled 'RG', the second column 'SER'. Use the table below then go to the appropriate page of this guide.

- [Click here to find information about these records in our online Archives Descriptive Database.](#)
- [Click here to consult the RG 1 Reference Code Conversion List for records with RG codes 01.](#)
- For records with RG codes CC and PR:

RG 8 I-3-B-40:Indexes to Land Patents by Name, *now RG 53-56*:

- **1826-1967**
- **6 reels of microfilm**
- **10 ft. of textual records**

This series consists of bound volumes and cards. In the volumes, the names of the patentees are listed alphabetically by the first letter of their surname and within this, chronologically by the date of the Patent. The cards are arranged alphabetically within time periods. The Index gives the name of the patentee, date of the Patent, Lot, Concession, Township, type of transaction, Liber (Book) and Folio (Page) numbers, and number of acres. The volumes for the period 1826-1912 have been microfilmed (MS-1, Reels 7-12).
