Pages 97-100	When asked about the different steps / decision tree for Trial Running my recollection was not entirely accurate in my response. Essentially each criteria has Pass / Fail criteria attached but depending on the circumstances the results are rolled up into a determination of a pass day, repeat day, or a re-start required. As I have now reviewed the Trial Running documents in more detail, I would like to respond and provide clarification on my trial running answers. Same comments apply for my answers relating to the “pause”
