Re:

**Submission from the OGWA for
The Walkerton Inquiry Phase II**

Dear Sir:

The Ontario Ground Water Association (OGWA) is pleased to submit the attached submission regarding the Groundwater Industry in Ontario.

You have received dozens of submissions on groundwater. To avoid duplication and redundancy, the OGWA has focussed only on matters which the groundwater industry are knowledgeable. We hope that the issues we have identified and our recommendations can be incorporated into your final report.

Yours very truly
Earl Morewood, HBA
Executive Manager
Ontario Ground Water Association
